## SENIOR SOFTWARE ENGINEER

Accomplished Engineer, listed in Forbes 30 Under 30, with expertise in developing comprehensive technology strategies. Offering a strong foundation in tech innovation, strategic leadership, and team mentoring; with a proven ability to drive growth, deliver successful outcomes, and collaborate within cross-functional teams.

---

## KEY COMPETENCIES

Python / Django / Flask

MySQL / PostgreSQL / Redis

Typescript / Javascript

HTML / CSS

CI/CD & Testing Pipelines

React / Astro / SolidJS

NodeJS / Express / NextJS

AWS / Lambda / Docker

Strong interpersonal skills

Management and mentoring

Proactive and self-motivated

Exceptional organisational skills

---

## PROFESSIONAL EXPERIENCE

### Chief Technology Officer - SupplyNow

May 2022 - Present

*Oversaw the development and implementation of the complete technology stack, demonstrating expertise in front-end and back-end technologies, server infrastructure, and cloud deployment environments.*

*Managed all technical aspects of the startup, including IT infrastructure, security, database administration, and application development, ensuring optimal performance and responsiveness of systems.*

*Led a diverse team of engineers, fostering an environment of innovation and continuous learning; successfully mentored junior team members, and established best practices for software development and operations.*

*Drove strategic decision-making related to technology investments and roadmap, aligning with the startup's business objectives, which led to streamlined operations, improved product scalability, and accelerated growth.*

### Senior Software Engineer - SupplyNow

June 2020 - May 2022

*Led the design, development, and deployment of full-stack solutions, utilizing various technologies and languages, ensuring optimal performance, security, and scalability of the product.*

*Demonstrated expert understanding of software development lifecycle, implementing Agile methodologies to enhance team productivity and ensure timely delivery of high-quality software applications.*

*Collaborated closely with cross-functional teams, including product management and UX/UI designers, to understand user needs and translate them into functional software features.*

*Actively mentored junior software engineers, sharing best practices, and promoting a culture of continuous learning and innovation within the team.*

### Software Engineer - Pastry Now

July 2019 - June 2020

*Assisted in the development and maintenance of software applications using various programming languages, gaining exposure to full-stack development processes.*

*Contributed to Agile development teams, participating in scrum meetings, and consistently meeting project milestones and delivery timelines.*
